INFORMATION BULLETIN

Temporary Removal of Fire Inspector Course Plans from State Fire Training Web Site

The Course Plans for the Fire Inspector series have been temporarily removed from the Instructor Resources tab on the State Fire Training (SFT) web site for the purpose of updating the documents.

These documents were originally developed prior to the implementation of the new SFT Curriculum Development Guidelines and therefore need to be reformatted and revised to fit into the new guidelines. It is anticipated that they will return to the web site no later than August 1, 2013, at which time classes may be scheduled for delivery.

As this curriculum has not been available as anticipated, the transition period for phase out of the old Fire Prevention courses and implementation of the new Fire Inspector courses will be extended to December 31, 2014. An updated Transition Plan reflecting this change is available at http://osfm.fire.ca.gov/training/pdf/TopicLetters/2012-10-31_InspectorCert.Changes.pdf

Thank you for your patience as we complete this updating process. Please address any questions regarding this bulletin to Kris Rose, Manager of Certification and Instructor Registration, (916) 327-2129, or kris.rose@fire.ca.gov.
